Steve,

We were very pleased with your presentation at our holiday gathering December 7th, 2011. I heard folks talking about it in our office today (how did he do that?) and everyone had a great time. You are very talented. I really liked the way you brought some of us "on stage" to participate in your act. This really made it enjoyable. You made it great even if the venue did not have a stage or specific area for you to work in. You made it happen. Thank you so much for a most enjoyable experience!
